After School Care Newsletter

Following our first After School newsletter we would now like to show what the children have been doing and how much fun they have had during after school care.

The first month was a great success. We have now implemented the new signing out system which was well received by everyone and is now an important part in keeping our after-school care safe for everyone.

We have been playing outside as much as possible, and some of the children have been doing crafts and making wonderful things to take home.

After the summer holidays we did some seashell crafts and Eliza, Alfie, Charlie and Oliver made bracelets and Noah made a wind chime, while some just coloured in the shells and even listened for the sounds of the sea. Owen and Ellis also made wonderful things with shells.

For Harvest festival we made some harvest jars. Lottie made a harvest moon from plasticine, and put it in her jar along with other harvest related items. Bella made a lovely selection of plasticine harvest fruit and veg and butterflies for her harvest garden in a jar. Bethany, Bobby, India and Scarlett also made some wonderful harvest jars.

For the final piece of news, we would like to share with you some amazing creative work with one of our most popular toys by Ethan in year 2. Ethan worked on this every time he came to after school club, and was so proud of it we decided to share it with everyone.

We hope after school care continues to be a success and the children keep enjoying it. We have just ordered more arts and craft supplies and have a growing selection of toys and books thanks to donations. I would also like to say thank you to all the parents and carers for helping make it work and for your continued support.
